DOB: 03/04/1982

### About Me:

Experienced at interpreting scripts and liaising with the Director and Producer to meet their set, prop and costume requirements for different eras, genres, and budgets. I have worked to many tight budgets and deadlines, managing an art department team on high-pressure shoots. Excellent teamwork skills, creative vision, attention to detail and an efficient multi-tasker. Achieved sourcing, multiple era research, meetings, hiring and full build, dress, budget, prop manage and paint for seven sets in four locations for BBC Horizon in one week. Original Designer pulled out and said project impossibly ambitious with the time scale and budget.

### Credits: Drama/Documentary:

BBC Horizon-Robert Graham's US genius sperm bank
